The comparative analyses of selected aspects of conservation and management of Vietnam's national parks
Le Thanh An, Janusz Markowski, Maciej Bartus

Conservation and trade of wild edible mushrooms of Serbia – history, state of the art and perspectives
Mandić Radomir, Adžemović Mesud, Marjanović Žaklina

Infanticide in brown bear: a case-study in the Italian Alps – Genetic identification of perpetrator and implications in small populations
Francesca Davoli, Mario Angeli, Fabio Groff, Ettore Randi

BioNNA: the Biodiversity National Network of Albania
Michela Pacifici, Fabio Attorre, Stefano Martellos, Ferdinand Bego, Michele De Sanctis, Petrit Hoda, Marjol Mea, Carlo Rondinini, Elson Salihaj, Edoardo Scepi, Lulëzim Shuka, Andrea Ghiurghi

Planning priority conservation areas under climate change for six plant species with extremely small populations in China
Hong Liu, Chun-Jing Wang, Zhi-Xiang Zhang

The journal Nature Conservation was established within the framework of the European Union’s Framework Program 7 large-integrated project SCALES: Securing the Conservation of biodiversity across Administrative Levels and spatial, temporal, and Ecological Scales, www.scales-project.net

Focus and Scope

Nature Conservation is a peer-reviewed, open-access, online and print, rapidly published journal. It is launched to mobilize ideas and data in all theoretical and applied aspects of nature conservation – biological, ecological, social and economic. Its broad scope and innovative use of media encourage interdisciplinary and integrative approaches. All papers published in Nature Conservation can be freely downloaded, copied, printed and distributed at no charge to the reader. Nature Conservation is a new-generation journal and can be seen as a platform comprising both innovative algorithms and a routine medium for the publication of data related to biodiversity.

Nature Conservation will consider publishing the following types of manuscripts:

- Original research articles
- Comprehensive reviews, historical analyses, ecological modelling and scenarios
- Monographs and collections of papers with no limit in size, published as ‘special issues’
- Applied conservation papers
- Short communications
- Letters and Forum papers
- Trend scanning papers
- Datasets and Data papers
- Web-based tools
- Book reviews

ISBN numbers will be assigned to large monographic papers, monographs, collections of papers, Festschrift volumes, atlases, checklists, conspecti.

All content is Open Access distributed under the terms of the Creative Commons Attribution License, which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited. Authors are thus encouraged to post the pdf files of published papers on their homepages or elsewhere to expedite distribution.

Authors are kindly requested to submit their manuscript only through the online submission module at www.pensoft.net/journals/natureconservation. In case of difficulties with the submission procedure, please contact natureconservation@pensoft.net.

Full text of author guidelines is available at: http://natureconservation.pensoft.net/

AUTHOR GUIDELINES

Authors are kindly requested to submit their manuscript only through the online submission module at www.pensoft.net/journals/natureconservation. In case of difficulties with the submission procedure, please contact natureconservation@pensoft.net.

Full text of author guidelines is available at: http://natureconservation.pensoft.net/

EXCERPTS FROM THE GUIDELINES

Body Text: All papers must be in English, checked by a native English-speaking colleague (if author(s) is/are not native English speaker(s)). Write with precision, clarity, and economy: use the active voice and first person whenever appropriate.

WEB (HTML) links: Authors may include links to other Internet resources in their article. This is especially encouraged in the reference section. When inserting a reference to a web-page, please include the http:// portion of the address.

CITATIONS WITHIN THE TEXT: Before submitting the manuscript, check each citation in the text against the References to ensure that they match exactly. Delete citations from the list if they are not actually cited in the text of the article. Citations in the text should be formatted as follows: Smith (1990) or (Smith et al. 1998); Brock and Gundersen 2001; Felt 2006).

REFERENCES: It is crucial to prop-erly format the references, because all references will be linked electroni-cally as much as possible to the pa-pers they cite. For all references, list all authors. You can include a DOI number for the full-text article as an alternative to or in addition to traditional volume and page numbers. Please use the following style for the reference list:

Accepted Papers: Same as above, but “In press” appears instead the page numbers.
