

# Contents

1	<b>Effects of management complexity on the composition, plant functional dominance relationships and physiognomy of high nature value grasslands</b> Róbert Kun, Dániel Babai, András István Csathó, Arnold Erdélyi, Judit Hartdégen, Attila Lengyel, Nikoletta Kálmán, András Mártonffy, Alida Anna Hábenczyus, Zsófia Szegleti, Ákos Vig, András Máté, Ákos Malatinszky, Tímea Tóth, Csaba Vadász
21	<b>Environmental characteristics, including soil and vegetation composition, in relation to the occurrence patterns of an endangered lizard, <i>Eremias argus</i>, in a fluvial island, South Korea</b> Eunhee Cho, Deokjoo Son
41	<b>A detailed assessment of the land cover development in a territory with dispersed settlement area (case study Hriňová – Snohy, Slovakia)</b> Katarína Švoňavová, Vladimír Falťan, Veronika Piscová, Vladimír Šagát, František Petrovič
67	<b>Climatic niche modelling and genetic analyses highlight conservation priorities for the Spotted Softshell Turtle (<i>Pelodiscus variegatus</i>)</b> Minh Duc Le, Dennis Rödder, Tao Thien Nguyen, Cuong The Pham, Truong Quang Nguyen, An Vinh Ong, Timothy E. M. McCormack, Thang Tai Nguyen, Mai Huyen Le, Hanh Thi Ngo, Thomas Ziegler
83	<b>Linking sufficiency and the protection of biodiversity: An issue of political implications, framing, descriptiveness and interdisciplinarity?</b> Marianne Hachtmann
103	<b>Effects of management, habitat and landscape characteristics on biodiversity of orchard meadows in Central Europe: A brief review</b> Cornelia Sattler, Julian Schrader, Marie-Luise Hüttner, Klaus Henle
135	<b>The greater the proportion of <i>Robinia pseudoacacia</i> in a stand the greater its effect on the population characteristics of <i>Erythronium dens-canis</i></b> Bálint Pacsai, Emese Anna Bognár, Bence Fülöp, Vivien Lábadi, Judit Bódis
153	<b>Prioritising areas for conservation within Tropical Important Plant Areas of the British Virgin Islands, Caribbean</b> Michalla Alicja Dolata, Nancy Woodfield-Pascoe, Thomas Heller, Michele Dani Sanchez, Sara Bárrios, Steven R. Schill, Patrik Karlsson Nyed, Martin Allen Hamilton, Keith Grant, Colin Clubbe, Bo Dalsgaard
177	<b>Recent changes in tropical-dry-forest connectivity within the Balsas Basin Biogeographic Province: potential effects on endemic-bird distributions</b> Alejandra Galindo-Cruz, Francisco Javier Sahagún-Sánchez, Fabiola López-Barrera, Octavio Rojas-Soto
201	<b>Paleoclimate changes and ecosystem responses of the Bulgarian Black Sea zone during the last 26000 years</b> Mariana Filipova-Marinova, Danail Pavlov, Krasimira Slavova
249	<b>Unveiling prey preferences of endangered wild Malayan tiger, <i>Panthera tigris jacksoni</i>, in Peninsular Malaysia through scat analysis via COI DNA metabarcoding</b> Millawati Gani, Frankie Thomas Sitam, Zubaidah Kamarudin, Siti Suzana Selamat, Nik Mohd Zamani Awang, Hani Nabilla Muhd-Sahimi, Michael Wong, Baharim Selat, Nur Fatin Khairunnisa Abdullah-Halim, Lim Shu Yong, Ling Fong Yoke, Salmah Yaakop, Abd Rahman Mohd-Ridwan, Badrul Munir Md-Zain
269	<b>Spatial distribution models and biodiversity of phytoplankton cysts in the Black Sea</b> Nina Dzhenbekova, Ivelina Zlateva, Fernando Rubino, Manuela Belmonte, Valentina Doncheva, Ivan Popov, Snejana Moncheva
297	<b>Applying landscape ecological principles in comprehensive landscape protection: Šumava National Park as a case study</b> Tomáš Janík, Dušan Romportl, Zdenka Křenová
321	<b><i>Rubus plicatus</i> Weihe &amp; Nees: resilience to pollution caused by stone quarries</b> Adriana Petruș-Vancea, Daniela Nicoleta Pop, Felicia Nicoleta Sucea, Amalia-Raluca Dumbravă, Simona Ioana Vicaș, Oana Stănășel, Traian Octavian Costea, Diana Cupșa
343	<b>Building a global-oriented ecological civilization: Huzhou's actions and practice, China</b> Pengcheng Ye, Xiao Zhao, Jianyong Wu

The journal Nature Conservation was established within the framework of the European Union's Framework Program 7 large-integrated project SCALES: *Securing the Conservation of biodiversity across Administrative Levels and spatial, temporal, and Ecological Scales*, [www.scales-project.net](http://www.scales-project.net)

# Nature Conservation

Launched to accelerate biodiversity conservation

## FOCUS AND SCOPE

**Nature Conservation** is a peer-reviewed, open-access, online and print, rapidly published journal. It is launched to mobilize ideas and data in all theoretical and applied aspects of nature conservation – biological, ecological, social and economic. Its broad scope and innovative use of media encourage interdisciplinary and integrative approaches. All papers published in **Nature Conservation** can be freely downloaded, copied, printed and distributed at no charge to the reader. **Nature Conservation** is a new-generation journal and can be seen as a platform comprising both innovative algorithms and a routine medium for the publication of data related to biodiversity.

**Nature Conservation** will consider publishing the following types of manuscripts:

- Original research articles
- Comprehensive reviews, historical analyses, ecological modelling and scenarios
- Monographs and collections of papers with no limit in size, published as ‘special issues’
- Applied conservation papers
- Short communications
- Letters and Forum papers
- Trend scanning papers
- Datasets and Data papers
- Web-based tools
- Book reviews

ISBN numbers will be assigned to large monographic papers, monographs, collections of papers, Festschrift volumes, atlases, checklists, conspecti.

All content is Open Access distributed under the terms of the *Creative Commons Attribution License*, which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited. Authors are thus encouraged to post the pdf files of published papers on their homepages or elsewhere to expedite distribution.

## AUTHOR GUIDELINES

Authors are kindly requested to submit their manuscript *only* through the online submission module at [www.pensoft.net/journals/natureconservation](http://www.pensoft.net/journals/natureconservation). In case of difficulties with the submission procedure, please contact [natureconservation@pensoft.net](mailto:natureconservation@pensoft.net). Full text of author guidelines is available at: <http://natureconservation.pensoft.net/>

## EXCERPTS FROM THE GUIDELINES

**BODY TEXT.** All papers must be in English, checked by a native English-speaking colleague (if author(s) is/are not native English speaker(s)). Write with precision, clarity, and economy: use the active voice and first person whenever appropriate.

**WEB (HTML) LINKS.** Authors may include links to other Internet resources in their article. This is especially encouraged in the reference section. When inserting a reference to a webpage, please include the **http://** portion of the address.

**CITATIONS WITHIN THE TEXT.** Before submitting the manuscript, check each citation in the text against the **References** to ensure that they match exactly. Delete citations from the list if they are not actually cited in the text of the article. Citations in the text should be formatted as follows: (Smith 1990) or (Smith et al. 1998; Brock and Gunderson 2001; Felt 2006).

**REFERENCES.** It is crucial to properly format the references, because all references will be linked electronically as much as possible to the papers they cite. For all references, list all authors. You can include a **DOI** number for the full-text article as an alternative to or in addition to traditional volume and page numbers. Please use the following style for the reference list:

**Published Papers:** Haila Y (2012) Genealogy of nature conservation: a political perspective. *Nature Conservation* 1: 27–52.

**Accepted Papers:** Same as above, but “In press” appears instead the page numbers.

**Electronic Journal Articles:** Mallet J, Willmott K (2002) Taxonomy: renaissance or Tower of Babel? *Trends in Ecology and Evolution* 18 (2): 57–59. [https://doi.org/10.1016/S0169-5347\(02\)00061-7](https://doi.org/10.1016/S0169-5347(02)00061-7).

**Paper within conference proceedings:** Orr AG (2006) Odonata in Bornean tropical rain forest formations: Diversity, endemism and applications for conservation management. In Cordero Rivera A (Ed.) *Forest and Dragonflies*. Fourth WDA International Symposium of Odonatology, Pontevedra (Spain), July 2005. Pensoft Publishers, Sofia-Moscow, 51–78.

**Book chapters:** Mayr E (2000) The biological species concept. In: Wheeler QD, Meier R (Eds) *Species Concepts and Phylogenetic Theory: A Debate*. Columbia University Press, New York, 17–29.

**Books:** Goix N, Klimaszewski J (2007) *Catalogue of Aleocharine Rove Beetles of Canada and Alaska*. Pensoft Publishers, Sofia-Moscow, 166 pp.

**Book with institutional author:** International Commission on Zoological Nomenclature (1999) *International code of zoological nomenclature*. Fourth Edition. London: The International Trust for Zoological Nomenclature.

**PhD thesis:** Dalebout ML (2002) *Species identity, genetic diversity and molecular systematic relationships among the Ziphiidae (beaked whales)*. PhD thesis, Auckland, New Zealand: University of Auckland.

**Link/URL:** BBC News: Island leopard deemed new species. <http://news.bbc.co.uk/> [accessed 3.VI.2008]

**CITATIONS OF PUBLIC RESOURCE DATABASES:** It is highly recommended all appropriate datasets, images, and information to be deposited in public resources. Please provide the relevant accession numbers (and version numbers, if appropriate). Accession numbers should be provided in parentheses after the entity on first use.

Examples of such databases include, but are not limited to:

- Zoobank ([www.zoobank.org](http://www.zoobank.org)),
- Morphbank ([www.morphbank.net](http://www.morphbank.net)),
- Genbank ([www.ncbi.nlm.nih.gov/Genbank](http://www.ncbi.nlm.nih.gov/Genbank)),
- BarCode ([www.barcodinglife.org](http://www.barcodinglife.org))

Providing accession numbers allows linking to and from established databases and integrates your article with a broader collection of scientific information. Please list all accession numbers directly **after the References**.

**DATA PUBLISHING.** The journal offers various models of data publishing in a cooperation with the GBIF ([www.gbif.org](http://www.gbif.org)), Dryad ([www.datadryad.org](http://www.datadryad.org)), Pangaea ([www.pangaea.de](http://www.pangaea.de)) and other data repositories.

**OPEN ACCESS FEES.** Publication fees in open access journals ensure a barrier-free distribution of your paper at no charge for the readers and include costs involved in processing, formatting, publishing, indexing and archiving your paper.

The journal charges Open Access Publication Fee of EURO 20 per page for papers of less than 100 printed pages. Publication fees for larger papers will be discounted and can be negotiated with the Managing Editor.

Open Access Publication Fees are usually covered by institutional funds and grants. Discounts/waivers can be requested by private and retired zoologists, scientists from low- and middle-level income countries, post-graduate students, especially in case of exceptionally good manuscripts.

Discounts will be offered also to scientists who actively participate in the reviewing and editing process.

**Note:** *Open access fees will be waived for all submissions published in the first four issues of Nature Conservation and will be reduced with 25 % until the journal will be covered by the ISI Web of Science. All papers published in the first issues will be later ISI covered and will have an Impact factor when the journal receives it.*

**PRINTED VERSION.** Offprints and printed issues of the journal can be purchased additionally (see journal’s website). For standing orders/subscriptions please contact the Managing Editor.
