Contents

1 Antarctic macrobenthic communities: A compilation of circumpolar information
Julian Gutt, David K. A. Barnes, Susanne J. Lockhart, Anton van de Putte

15 Protected Areas legislation and the conservation of the Colombian Orinoco Basin natural ecosystems
Ana M. Aldana, Jonathan Mitchley

29 Retention forestry and biodiversity conservation: a parallel with agroforestry
Jean-Michel Roberge, Mikko Mönkkönen, Tero Toivonen, Janne S. Kotiaho

35 Effectiveness of the Natura 2000 network to cover threatened species
Audrey Trochet, Dirk S. Schmeller

55 Investigation of fungal root colonizers of the invasive plant Vincetoxicum rossicum and co-occurring local native plants in a field and woodland area in Southern Ontario
Cindy L. Bongard, Ken Butler, Roberta Fulthorpe

The journal Nature Conservation was established within the framework of the European Union’s Framework Program 7 large-integrated project SCALES: Securing the Conservation of biodiversity across Administrative Levels and spatial, temporal, and Ecological Scales, www.scales-project.net

AUTHOR GUIDELINES
Authors are kindly requested to submit their manuscript only through the online submission module at www.pensoft.net/journals/natureconservation. Full text of author guidelines is available at: http://www.pensoft.net/journals/natureconservation

EXCERPTS FROM THE GUIDELINES

Focus and Scope
Nature Conservation is a peer-reviewed, open-access, online and print, rapidly published journal. It is launched to mobilize ideas and data in all theoretical and applied aspects of nature conservation – biological, ecological, social and economic. Its broad scope and innovative use of innovative algorithms and a routine medium for the publication of data related to biodiversity. Nature Conservation is a new-generation journal and can be seen as a platform comprising both innovative algorithms and a routine medium for the publication of data related to biodiversity.

Nature Conservation will consider publishing the following types of manuscripts:

- Original research articles
- Comprehensive reviews, historical analyses, ecological modelling and scenarios
- Monographs and collections of papers with no limit in size, published as ‘special issues’
- Applied conservation papers
- Short communications
- Letters and Forum papers
- Trend scanning papers
- Datasets and Data papers
- Web-based tools
- Book reviews

ISBN numbers will be assigned to large monographic papers, monographs, collections of papers, Festschrift volumes, atlases, checklists, conspecti.

All content is Open Access distributed under the terms of the Creative Commons Attribution License, which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited. Authors are thus encouraged to post the pdf files of published papers on their homepages or elsewhere to expedite distribution.

Citations of public resource databases: It is highly recommended to list all databases used in your manuscript. The journal charges Open Access publication fees for large papers. Publication fees for larger papers will be reduced and can be negotiated with the Managing Editor. Open Access Publication Fees are usually covered by institutional funds and grants. Authors are thus encouraged to link to and from established databases.

Open Access Fees: Publication fees in open access journals ensure a barrier-free distribution of your paper at no charge for the readers and include costs involved in processing, formatting, publishing, indexing and archiving your paper. The journal charges Open Access Publication Fee of EURO 20 per page for papers of less than 10 printed pages. Publication fees for larger papers will be discounted and can be negotiated with the Managing Editor.

Data Publishing: The journal offers various models of data publishing in a cooperation with the GBIF (www.gbif.org), Dryad (www.datadryad.org), Pangaea (www.pangaea.de) and other data repositories.

Open Access Fees: Publication fees in open access journals ensure a barrier-free distribution of your paper at no charge for the readers and include costs involved in processing, formatting, publishing, indexing and archiving your paper. The journal charges Open Access Publication Fee of EURO 20 per page for papers of less than 10 printed pages. Publication fees for larger papers will be discounted and can be negotiated with the Managing Editor. Open Access Publication Fees are usually covered by institutional funds and grants. Authors are thus encouraged to link to and from established databases.

Discounts will be offered also to scientists who actively participate in the reviewing and editing process.

Notes: Open access fees will be waived for all submissions published in the first four issues of Nature Conservation and will be reduced with 25% when the journal will be covered by the ISI Web of Science. All papers published in the first issue will be later ISI covered and will have an Impact factor when the journal receives it.

Printed Version: Offprints and printed issues of the journal can be purchased additionally (see journal’s website). For standing orders/subscriptions please contact the Managing Editor.
